# WEATHER SYNOPSIS BY REGION

## **NORTHERN CALIFORNIA**

- Unsettled weather will continue through Wednesday -Thursday due to low pressure systems.
- Transitioning to a ridge-inside slider pattern Friday with lasting effects into early the following week. Confidence moderate to high for this weather change.
- Locally gusty afternoon S-SW winds (20-30 mph) next three afternoons favoring the Shasta Valley and areas along and east of the Cascade-Sierra Crest.
- Gusty N-NE wind starting Friday and lasting into early the following week.
- A few light showers across the northern tier through midday with another round of increasing shower activity Monday afternoon with lasting effects through Thursday. Wetting precipitation of .25 to 0.75 inches expected across the western third of the region, particularly favoring the Bay Area and Mid Coast-Mendocino Monday night through Tuesday night.
- Higher relative humidity (RH) and cooler than normal temperatures through Thursday, much drier and warmer starting Friday and continuing into the following week.

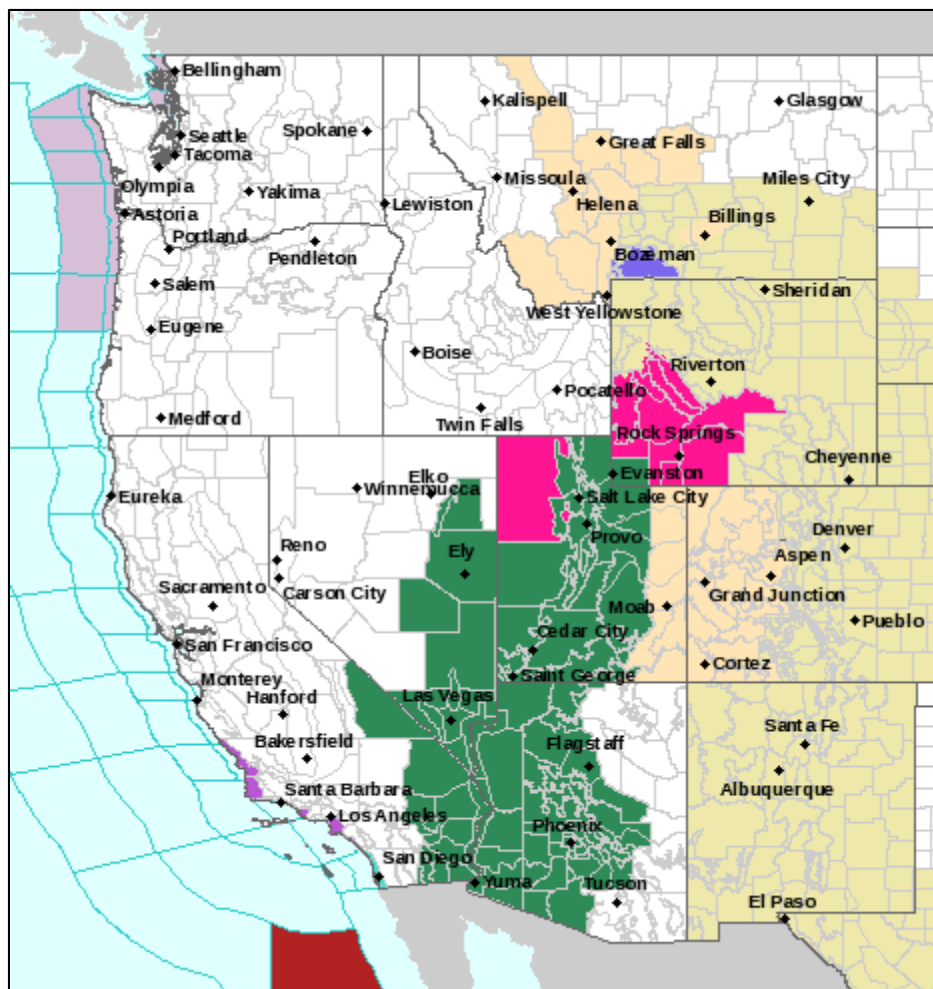

## **SOUTHERN CALIFORNIA**

An area low pressure approaching the California Coast will move inland over Southern California Wednesday. Some subtropical moisture is expected to become entrained into this low-pressure area. A series of troughs will drop down into California from Canada Thursday through next weekend.

- South to west winds of 15 to 25 mph with gusts to 40 mph will continue to surface across the wind prone mountain and desert areas through next weekend.
- Temperatures will remain near to a little below normal through Monday, with mid 60s to mid 70s across the mountains and upper 70s and 80s in the valleys.
- Minimum humidity will remain mainly between 20% and 40% away from the coastal areas through Monday.
- Scattered showers and thunderstorms will develop over the mountains and deserts of Southern California starting Monday afternoon.
- The entire area will receive showers and thunderstorms Tuesday morning through Wednesday night.
- Most mountain and desert locations will receive between 1 and 2 inches of rainfall and most coast and valley locations will receive between a half inch and an inch of rainfall through Wednesday night.
- The shower and thunderstorm activity will come to an end across most of the region starting Thursday, but scattered showers will continue over the Sierra through next weekend.
- Temperatures will be well below normal Tuesday through next weekend.
